

Block 30 – Revelation 8:13

Tips for Block

Make two claws the same using the one in the front as a pattern, then tuck one behind the other when constructing the eagle. Use a bright white fabric for the head, tail, and back layer of the wings and then three shades of brown gradually getting darker as they progress from back to front. Construct eagle by layering the various pieces from the back to the front on a Teflon sheet. When finished place completed eagle on the block.
