

Block 37 – Revelation 11:11-13

Tips for Block

Use the same blue background you used for block 35. Place the red in the earthquake crack before placing the broken ground (use same fabric as block 36 background) and road. Be sure to use the same fabric for the witnesses' clothes and skin color that you use in blocks 35 and 36. You may omit the shoes if you used black for them on block 35; otherwise, match what you did there. Use a permanent marker to write the words right below the road and in the upper left corner. Use a white fabric for the cloud and a gold fabric for the words to cut out.
