

Block 43 – Revelation 13:1-2

Tips for Block

Use a green fabric for the background to represent the land. The lower left corner of the block should be blue to represent the sea. I used black fabric for the body of the beast and cut cat heads out of a Halloween fabric for the seven heads or use one of the above two cat heads as a pattern to create the seven heads. Place the heads on top of the wide neck of the beast in the sea. Cut small triangles out of a contrasting fabric for the beast's ten horns; you can slip them in between the head and the background when you iron the pieces in place. (Note: some heads will have one horn and others will have two horns.) You may use as much or as little detail on the dragon as you wish, keeping the general appearance similar to the previous blocks.
