

Block 70 – Revelation 19:20

Tips for Block

Use a medium blue for a background square. Create the fire by using two different red fabrics and iron fusible on the back of them, then cut freehand the flames about 5 ½" long. Layer the flames at the bottom of the block alternating the fabrics. I used a solid color for the arrow. The beast's body should be red; use seven cat heads for its "head" along with 10 horns. If you don't have fabric to fussy cut cat heads from use the above patterns to make them. The "wolf in sheep's clothing" should be colored as in block 44. The cage can be made by cutting strips from dark brown fabric with fusible on the back and then placed on top of the caged beasts.

NOTE: it is easier to assemble the beasts whole, that way the bars don't have to line up exactly.
